Dedicated to the advancement of the drinking water profession

water works pride

Learn More About Our Growing Association...

Organization

The organizational structure of MWWA includes a President, President-Elect, Treasurer, Secretary, and a four person Board of Directors consisting of the immediate Past President and three Trustees. A full-time Executive Director conducts the day-to-day business of the association.

Committees

MWWA welcomes your participation on any number of our active committees. MWWA is a volunteer organization and thrives on the dedication, commitment, and support of our members.

The **Program Committee** is responsible for scheduling and planning meetings which provide a forum for discussion of current technical, operational, regulatory, and legislative issues. The Program Committee organized the annual Summer Expo and Clambake, a water works tradition which attracts some 1,100 water works professionals. Other membership meetings are scheduled throughout the state to encourage participation of all our members.

The **Education Committee** provides continuing education for water works professionals and awards CEUs. The Committee conducts review seminars for the Massachusetts Operator's Certification Exam as well as other seminars and workshops to provide practical hands-on experience and training.

The **Legislative Committee** tracks the legislation that impacts the water works industry. The Committee is our industry's vehicle for keeping legislature and the Commonwealth's regulatory agencies informed of the concerns of water purveyors and their customers.

The **Technical Advisory Committee** evaluates the impacts of proposed regulations on the industry from a scientific perspective.

The **Membership** and **Public Relations Committees** work together to promote "Water Works Pride" while conveying the opportunities of membership in MWWA and enhancing the image of the association.

The **Sponsorship Committee** manages MWWA's annual Sponsorship Program which provides the necessary funding for the membership meetings and special events that take place throughout the year.

The **Historical Committee** strives to protect our future by preserving and protecting out past water works memorabilia of historical significance.

Awards

MWWA recognizes members who have made significant contributions to the water works profession at our annual banquet.

Welcome to MWWA

The Massachusetts Water Works Association, Inc. (MWWA) was incorporated in 1950 when several water superintendents from central Massachusetts identified the need to form an organization where they could discuss current water works practices and exchange experiences. From its small group of pioneers, the organization has grown to over 1,100 water works professionals dedicated to providing Massachusetts consumers with a sufficient supply of high quality drinking water.

Since its inception, MWWA has worked to address the needs of its members. The association has evolved over the years and has taken a more active role in legislative and regulatory advocacy on behalf of water professionals statewide. Recent efforts include grassroots outreach to legislators through "legislative coffees," testifying at legislative hearings on issues of importance to the water works industry and getting an amendment passed in the state budget to create a "Blue Ribbon Panel" to study the effectiveness of the Water Management Act. MWWA is proud of its history and is committed to the future with Water Works Pride.

Utility Advantage Program

In an effort to better serve our members and expand upon our advocacy and outreach, MWWA has implemented a special Utility Advantage Program. Funds from this program will further support the important work that MWWA is doing on behalf of water professionals. Utilities participating in this program can send their employees to training seminars at the member rate.

Mission Statement

The Massachusetts Water Works Association, Inc. is a membership organization dedicated to the advancement of the drinking water profession. Through education and advocacy, MWWA is committed to protecting public health and providing a safe and sufficient supply of drinking water to Massachusetts consumers.

Benefits of Membership

As an individual member of the largest professional water works association in Massachusetts, you will receive a yearly subscription to H2O Pump, MWWA's newsletter published five times a year, notices of training seminars, and information on the ever changing water works field.

Individual members of MWWA are eligible to receive one TCH per year towards Operator Certification renewal.

Members have excellent networking opportunities and discounted rates at training seminars.

Most importantly, members have an opportunity to shape the future of the water works industry in Massachusetts.

Membership Categories
