

Wastewater Project Engineer Dedham, MA

Woodard & Curran is a 700-person, integrated engineering, science, and operations company. Privately held and steadily growing, we serve public and private clients nationwide. We consistently rank among the top firms in the U.S., including Engineering News-Record's top 100 environmental firms and top 200 design firms. Woodard & Curran was founded with a simple business concept: if we provide an enjoyable place to work with opportunity, integrity, and commitment, we will attract talented people who thrive and excel at their work.

Responsibilities:

The successful candidate will have in-depth understanding and experience with the engineering concepts associated with wastewater collection and pumping. Experience with preliminary and primary treatment, activated sludge wastewater treatment, nutrient removal, disinfection technologies, solids removal and handling are a plus. The candidate will have experience preparing engineering reports and contract documents for construction, carrying out public procurement procedures and administering/managing the construction.

Responsibilities

- Make decisions independently on engineering problems and methods with a low to moderate level of review and oversight required by supervisors.
- Mentor and direct junior staff on technical assignments, and reviewing technical work completed by engineers under supervision.
- Present and interact with clients and regulatory agencies, representing the firm in a professional manner with support from senior engineering or project management staff.

Qualifications:

- 6+ years of engineering experience.
- B.S. Degree in Civil or Environmental or Chemical Engineering.
- Registered Professional Engineer in Civil, Environmental, Chemical, or Sanitary.
- Experience working in the consulting engineering field.
- Excellent computer, verbal, and written skills required.
