

29175 - Industrial Pretreatment Program Technician
Veolia Water North America
Gloucester, Massachusetts, United States, 01930

The FOG (Fats, Oils and Greases) Coordinator is responsible for management, administration and the performance of the City's FOG Program and Industrial Pretreatment Program (IPP). This role will be a mix of office and field work. Field work will be composed of inspecting FSE's and IPP facilities, prospective FOG generators and surface level manhole/sewer evaluations requiring the removal of manhole covers (50-70 pounds) with the use of a manhole cover lifting tool. This person will be assigned a company vehicle necessitating a good driving record.

Job Requirements

- Associates Degree in a Technical/Scientific Field or equivalent experience, Bachelors Degree Preferred.
- Excellent computer and software skills required to include MS Office, MS-Outlook and specialty software as required
- Strong mathematical skills
- Strong communication (both written and verbal), presentation and organizational skills
- Enthusiastic and energetic with a positive "can do" attitude fostering an attitude of continuous improvement
- Grade 4M or higher Massachusetts Wastewater Treatment Operator Certification or the ability to attain within 6 months
- 3 - 5 years of wastewater experience in a municipal environment
