

## **WASTEWATER ENGINEER (8+ yrs exp)**

Kleinfelder is an employee-owned architectural, engineering, and science consulting firm providing solutions to meet our world's complex infrastructure and natural resource challenges.

Kleinfelder has nearly 2,000 employee-owners with offices nationwide and abroad. With over 50 years of experience, Kleinfelder's reputation for providing innovative, commonsense solutions to the most complex challenges has solidified its status as a trusted partner to its global clients and a leader in the industry. Working as a team, Kleinfelder's bright people will deliver the right solutions.

We are seeking a highly motivated and experienced Wastewater Engineer to join our Water Resources Group based in Cambridge, MA or Manchester NH (location in other Kleinfelder New England offices will also be considered).

Candidates must have strong technical expertise, specifically in the municipal wastewater treatment engineering field and be fully capable of providing technical leadership and direction to project teams. Candidate must possess excellent organizational, communication and technical writing skills and be proficient in AutoCAD and Microsoft Office computer applications.

The selected candidate will work in our team-oriented environment, primarily providing municipal clients with professional engineering services for wastewater treatment projects.

If selected, you will work with technical teams in a diverse range of wastewater engineering services which may include:

- design,
- bidding,
- construction administration,
- start-up and troubleshooting of wastewater treatment plants, bio solids facilities, pumping stations;
- capital improvement planning,
- wastewater treatment process modeling;
- as well as other projects such as collection system improvements, infiltration and inflow removal, and master planning.

This position offers significant room for growth and development for the right candidate supporting challenging wastewater projects both in New England and across Kleinfelder offices nationwide.

The selected candidate will have the opportunity to:

- Participate in technical, cost, and scheduling decisions, ensuring company quality standards, and driving customer value;
- Nurture and grow client relationships and contracts that may include complex, multi-disciplinary projects in wastewater design and construction;
- Participate in technical/project scoping activities and proposal presentations with targeted clients;
- Mentor the technical development of staff in the group;
- Manage projects.

To qualify as a candidate, you must possess a B.S. in Civil, Environmental, or Chemical Engineering and M.S. is preferred, Professional Civil Engineering Registration, and at least 8 years of experience in an engineering or professional services firm.

Kleinfelder offers an excellent compensation and benefits package including medical, dental, vision, insurance, 401(k) plan, paid holidays, and employee ownership. Kleinfelder is an Equal Opportunity Employer
