

Instrumentation Technician II • 10803

The leading provider of comprehensive water and wastewater services to municipal and industrial customers.

Veolia Water North America is seeking an Instrumentation Technician for its wastewater treatment operations in Taunton, MA. The Instrumentation Tech maintains, inspects, calibrates and repairs various meters, instruments and process logic controllers according to manufacturer's recommendations and specifications.

Requires:

- High school or GED with the ability to read, write and comprehend English (operational, manufacturer's manuals, wiring guides, diagrams and blueprints and safety and quality instructions) and be able to carry out verbal and written instructions.
- Ability to perform basic mathematical calculations. Vocational training with mechanical and electrical aptitude required. Must demonstrate ability to read, interpret and record data from meters, gauges, panels, computer consoles and other equipment.
- Wastewater license preferred
- Two to five years experience in a similar environment with the knowledge of occupational hazards and safety requirements involved in electrical maintenance and repair and chlorine handling.
- Ability to efficiently maintain, install, repair and calibrate a variety of instruments, controls, gauges and metering devices which may include electronic circuitry, PLC's (Programmable Logic Control units) and SCADA (Supervisory Control And Data Acquisition) systems.
- Knowledge of HOA (Hand-Off-Auto) operational controls
- Ability to use precision measuring devices, testing equipment and shop tools such as drill press, band saw, bench grinder, and torque wrench.
- Ability to inspect and diagnose problems in multiple unit processes, troubleshoot and take corrective action within policy and procedure limitations.
- Ability to operate Computer Maintenance Management System (software). Must have basic computer skills including, but not limited to basic operations and manipulation of data on spreadsheets, etc.
- Must possess a valid driver's license (commercial license is desirable) and a safe driving record.
- Electrical license is required such as an E1 or E2
