

O&M Technician Boston, MA

Woodard & Curran is a 700-person, integrated engineering, science, and operations company. Privately held and steadily growing, we serve public and private clients nationwide. We consistently rank among the top firms in the U.S., including Engineering News-Record's top 100 environmental firms and top 200 design firms. Woodard & Curran was founded with a simple business concept: if we provide an enjoyable place to work with opportunity, integrity, and commitment, we will attract talented people who thrive and excel at their work.

Responsibilities:

The ideal applicant, under direction from an Area Manager, Assistant Plant Manager, Plant Manager, or Chief Operator, performs the daily operations of the assigned facilities, including, with supervision, operations/monitoring/maintenance, and housekeeping of the facilities in accordance with contract requirements.

Activities include:

- The operation and monitoring of any collection pipelines or distribution network and all associated components.
- Daily inspection of operating sites.
- Maintaining communications with project personnel.
- Preventive maintenance activities and data entry and report generation, including data for preparing the Monthly Operating Report.
- Monitor and control assigned tasks to ensure cost-effective service to meet budget, and will serve as an integral team member with the project staff and management.
- Comply with all company Health and Safety procedures and policies.
- Coordinate with plant personnel, ensuring that other facility employees follow established administrative, safety, operating, and maintenance policies.

Qualifications:

- Applicant will possess proficiency with computers, including an ability to work with: SCADA, Microsoft Word, Excel, Maintenance Management Programs, and other site specific systems.
- High School Graduate or equivalent.
- Minimum ten years of professional experience in the operation and maintenance of a water or wastewater treatment facility is desired.
- Applicant must possess and maintain, as a minimum, a valid Waste Water Treatment Plant Operator's License (grade 4 or higher), issued by the state (MASS) in which the facility is located or the ability to pass the test within 6 months of starting the job.
- Must live within 30 minutes of the main pump station, 120 Malden Street, Boston, Ma.
- Must possess solid mechanical repair skills while providing mechanical and basic electrical system troubleshooting and repair of pumping equipment and control switches.

- Must be able to work days, nights, weekends and holidays, as required for emergency call outs. Working in inclement weather may be required.
- Applicant must possess a valid Driver's License for same state.
