

COMPANY NAME:  
Woodard and Curran, Inc.

JOB TITLE:  
Water Engineer 2 - R00756

--LOCATION OF JOB--  
COUNTRY: United States  
STATE/PROVINCE: Massachusetts  
CITY: Andover  
ZIP CODE: 01810

DESCRIPTION/RESPONSIBILITIES:

At Woodard & Curran, there's nothing we love more than a tough engineering challenge. We handle a wide range of water and environmental issues—solving complex problems with creativity and tenacity. That's how we make a difference to our clients, people, and planet. Our company was founded on a simple concept: provide a safe and enjoyable place to work with opportunity, integrity, and commitment, and we will attract talented people. Those people are at the heart of our firm, solving some of the most pressing water and environmental challenges for our clients.

Responsibilities:

We are seeking an engineer who can work at the task level on water/wastewater system planning, design and

construction projects for our private and municipal clients. You will be exposed to a variety of projects and will report directly to Project Engineers and Project Managers who provide leadership in the timely and quality delivery of services including effective scheduling and cost management control and mentoring of professional staff. Â

### Qualifications:

The ideal candidate for this position will function well in a team environment, working closely with other engineers, designers and Project Managers to take a project through permitting, design and construction. Ideally, you will be familiar with engineering concepts associated with municipal drinking water systems or have a breadth of experience across both drinking water and wastewater disciplines. Specific areas of experience or familiarity may include hydraulic modeling, water treatment processes and distribution system infrastructure, and have experience preparing plans and specifications. Experience and knowledge with state and EPA regulations regarding water treatment and distribution systems is desirable. Â Knowledgeable in state bidding laws and the SRF program desirable. Â Strong writing and communications skills are also required as assignments will include report writing, environmental studies and presentations.

\* 0-5 years of engineering experience with water or

wastewater engineering related projects.

- \* B.S. Degree in Civil or Environmental Engineering.

- \* Experience with local, state, and federal regulatory permitting process.

- \* Engineer-In-Training (EIT) certification preferred.

Woodard & Curran is an Affirmative Action/Equal Opportunity Employer.

Woodard & Curran is a Drug Free Work Place.

Individuals with Disabilities and Protected Veterans are encouraged to apply.
