

Veolia North America is the global leader in optimized resource management. With over 163,000 employees worldwide, Veolia designs and provides water, waste and energy management solutions that contribute to the sustainable development of communities.

Water & Wastewater Maintenance Manager: Leominster, MA

Summary: Performs maintenance services, installation or repairs in plumbing, mechanical, electrical, pneumatic, hydraulic, installation, carpentry, painting or vehicle servicing at Water and Wastewater Plant.

Schedule: Monday to Friday 8:00 am to 4:00 pm

Job Duties:

- Performing routine and more advanced preventative and repair maintenance on pumps, motors, vehicles and other treatment facility equipment
- Maintaining adequate records of work performed and materials used
- Established a system for routine preventative maintenance
- Maintaining an effective inventory of parts
- Understanding the basic operation of treatment plant equipment
- Performing repairs of an electrical, hydraulic, or mechanic nature
- Supervising the work of operators in performing maintenance duties
- Maintaining effective working relations with clients, plant personnel, Veolia staff and the public
- Other duties as assigned

Requirements:

- High school or GED with the ability to read, write and comprehend English
- 5 years experience in a related position with ability to comprehend specifications, blueprints and manuals.
- Must possess or be able to obtain a Massachusetts water / wastewater license as required by regulatory agency at site.
- Experience using power, pneumatic, hydraulic, and hand tools and shop tools such as drill press, band saw, bench grinder, and torque wrench preferred.
- Experience using material handling equipment, pressure gauges and precision measuring instruments.
- Must possess a valid driver's license and a safe driving record.

This Job will close on September 14th
