

JOB TITLE: NETWORK SYSTEMS ENGINEER

The Springfield Water and Sewer Commission (SWSC) is seeking a highly motivated and innovative candidate to work as a **NETWORK SYSTEMS ENGINEER III** at our Bondi's Island facility in Agawam, MA. The job of Network Engineer III was established for the purpose of coordinating/designing networking, database, voice, and data communications for the Commission to ensure the flow of information among all Commission computers and staff members; and providing technical expertise for problem solving related to core network infrastructure and devices such as switches, routers, virtualization, telecommunications, and storage.

About SWSC: SWSC was established in 1996 as an independently operated and managed regional water and wastewater utility. SWSC employs approximately 250 people in roles ranging from engineering, laboratory, construction, union labor, customer service, and professional services, all of which serve 250,000 retail and wholesale customers in the lower Pioneer Valley through a regional water and wastewater infrastructure system. Governing oversight is provided by a three-member Board of Commissioners, appointed and approved by the Mayor of Springfield and City Council, with an executive director managing day-to-day operations. SWSC is not affiliated with any department of the City of Springfield and maintains its own budget, personnel, assets, policies, and procedures.

Mission Statement: SWSC's mission is to provide an adequate, uninterrupted, high-quality supply of water to our customers, to collect and treat wastewater, and return clean water to the environment. www.waterandsewer.org
