

MWWA OPERATOR EXAM PREREQUISITE COURSE

***Concepts & Practices of Basic Drinking Water Treatment
Live In-Person Training – Evening Class***

MWWA Course ID #EXM-2012-06

The course is designed to provide students with the general concepts of drinking water treatment processes. Taking and passing this course is a prerequisite for taking the Massachusetts Grade 2 Drinking Water Operator Treatment License Exam.

Participants will meet for 3 ½ hours each week to learn the following concepts: source water protection & management, hydrology, basic math and chemistry, regulations, water sampling & analysis, hydraulics, treatment processes, equipment operation and maintenance, safety, and administrative duties. *(Note: basic math knowledge is required for this course. Individuals not comfortable with math concepts should consider taking a math course before taking this course.)*

Upon successful completion of this course a “Certificate of Completion” will be issued along with a Certificate for up to 37 Training Contact Hours (TCH). Successful completion requires achieving a final score of 70 points through a combination of attendance and active participation (must attend minimum of 10 classes), homework, midterm exam and final exam. *(Note: Certificates will only be issued when full payment has been received)*
