About Our Program

About Our Program

This 7-week course is a State-approved course offered by Massachusetts Water Works Association. It is designed to provide the student with the advanced concepts of drinking water treatment operations.

Operators will be equipped with ability to control process, not just basic understanding (e.g. being able to answer the "why" or "why not" questions). Emphasis will be on filtration and reporting.

Advanced topics include: potable water sources and use, treatment technologies, laboratory, and administration will be covered.

Through a combination of lecture and group discussion, each distribution system task and/or maintenance technique will be reviewed and then discussed in depth.

Math knowledge up to basic Algebra level is strongly recommended for this course.

Concepts & Practices of Advanced Drinking Water Treatment (7 weeks)

Course ID: EXM-2012-07
Dates: Mondays, Oct 7 —Dec. 2
2019 (no classes 10/14, 11/11)
Time: 8:45 AM—3:45 pm
Location: Fallulah Water Treatment Plant
1200 Rindge Rd.
Fitchburg, MA
Cost: \$829.00 (Course)
\$139.00 (Textbooks)

Certificate of Completion

Massachusetts Water Works Association will sign a State-Approved Certificate of Completion upon successful completion of this course.

To pass this course you need to attend 6 out of the 7 sessions, plus gain a minimum of 70 points which is achieved through a combination of attendance, homework, mid-term and final exam grades.

Did you know?

As of January 2012, in order to sit for the State drinking water exams the Massachusetts Board of Certification of Operators of Drinking Water Supply Facilities established new training requirements.

- ⇒ To sit for D2, D3, D4 exams, individuals must take the Concepts and Practices of Drinking Water Distribution course.
- ⇒ To sit for T2, you need to complete Basic Treatment Course
- ⇒ To sit for T3 & T4, you need to complete Advanced Treatment

Who Should Take This Course?

- ⇒ Students must possess a Grade 2 T (full or OIT) license or have successfully completed a Basic Treatment course

Book Information: This course will utilize the California State University at Sacramento—Office of Water Programs Series entitled Water Treatment Plant Operation, Volumes I (7th Edition) and II (6th Edition). If you already own these texts you do not need to purchase them. In addition, it is suggested that students consider purchasing the American Water Works Association (AWWA's) Field Guide to SDWA Regulations (this can be purchased from AWWA).
