

OSHA Requirements – What MA Utilities Need to Know

MWWA Course Seminar (Course ID # MWWA 19-005) MA Wastewater BC-2019-3428

Course approval pending for Rhode Island Water Operators

Effective February 1, 2019 MA General Law (Chapter 146, § 6) requires that all Massachusetts public employees to follow federal OSHA (Occupational Safety and Health Act) safety regulations. Compliance with these requirements is overseen by the MA Dept. of Labor Standards (DLS).

This full day class is an awareness training will present a general overview of the important utility safety issues and will include presentations and equipment demonstrations by Tiger Training of Marshfield, MA. There will be a hands on component in the afternoon and attendees are encouraged to bring PPE equipment that they own, such as respirators and air monitoring equipment. A total of **6.0 TCH** (Training Contact Hours) will be issued.

Learning Objectives:

- To understand the new safety requirements and how to begin down the path toward compliance
- To be aware of the hazards related to: trenches, confined spaces, ladders, power tools, electricity, personal protective equipment (PPE), fall protection, blood borne pathogens, AC pipe and hazard communication
- To practice proper use of specific types of PPE and other safety equipment
