

Become a Certified Flagger
In Person Training

MWWA Course Seminar (Course ID # MWWA 24-008, MA Wastewater BC-2024-33837)

Many utilities are finding it increasingly difficult to obtain police details on roadway projects. This is especially problematic when emergency repairs are needed, putting the safety of both the public and the utility workers in jeopardy.

This half day course will provide Flagger Certification to individuals conducting flagging operations on the roads in the Commonwealth of Massachusetts. The course will be taught by Catherine Schoenenberger President and owner of Stay Safe Traffic Products. Ms. Schoenenberger is one of eight MassDOT-approved certified flagging instructors in the Commonwealth. All attendees will be provided with American Traffic Safety Service Association (ATSSA) training booklets and pocket guide. Individuals that successfully complete this training will be issued flagger certification which is valid for 2 years. This training is approved for **3.0 TCHs** (Training Contact Hours) for both MA water and wastewater operators.

Important:

- All students must present a valid First Aid Certificate in order to be eligible for Flagger Certification.
- Space is limited. Only 3 staff per utility/business can be registered. Additional staff can be added to the waitlist and will be added on a first-come, first-served basis as space allows.
- The use of Certified Flaggers must be coordinated with all local authorities.

Learning Objectives:

- Review the definitions and human factors of doing work along a roadway
- Discuss the parts of a Temporary Traffic Control Zone (TTZ)
- Learn how to control the Work Zone and properly perform flagging operations.

LOCATION:	Milford Water Company 66 Dilla Street, Milford, MA 01757
DATE:	Thursday, November 21, 2024
COST:	\$175 Members; \$235 Nonmembers
