

Lead & Copper Sampling – Do This, Not That !

MWWA Course: MWWA 21-007

It has been nearly 30 years since the implementation of the Lead and Copper Rule (LCR). Some aspects of the LCR have remained the same while others have changed. New proposed changes are on the horizon. One thing that hasn't changed is the requirement to collect 1-liter samples from within residential locations. The coordination of the residential sampling, the importance of proper sample collection and the reporting requirements are the most complicated of the EPA Rules.

This half day class will provide attendees with an overview of the current rule and the proposed changes. It will also include valuable tips on coordinating residential sampling and sampling techniques as well as the proper reporting and notification requirements.

This is a valuable refresher for staff familiar with the LCR and is a **MUST** for new staff needing to understand the critical aspects of the LCR.

Learning Objectives:

- Review the current Lead and Copper Rule and the proposed changes.
- Discuss tips on coordinating residential sampling and proper sampling methods.
- Learn how to report the results and conduct customer notifications.

This course is approved for **2.0 TCHs** (Training Contact Hours) for Massachusetts and Rhode Island Water Operators. It will be taught using the Zoom platform. Participants will need to have a reliable highspeed internet connection and computer device with both video and audio capability. Please review our Student Expectations for Attending Virtual Training at www.masswaterworks.org/education.

LOCATION: Remote Training via Zoom

DATE: Thursday, May 6, 2021

TIME: 8:30 – 11:30 AM

COST: \$50 Members; \$75 Nonmembers

INSTRUCTORS: Amy Finch, MassDEP, Central Regional Office
Sue Tower, Springfield Water & Sewer Commission
Steve Estes-Smargiassi, Mass. Water Resources Authority

AGENDA	8:30 – 8:45 AM	Class Overview & Introductions
	8:45 – 9:30 AM	Review of the Lead & Copper Rule
	9:30 – 10:00 AM	Tips on Coordinating with Residents & Proper Sampling
	10:00 – 10:15 AM	Break
	10:15 – 10:45 AM	Reporting and Notification Requirements
	10:45 – 11:15 AM	Overview of Proposed LCR Changes
	11:15 – 11:30 AM	Q & A, Conclusions & Course Evaluations

Registrations must be done on-line (www.masswaterworks.org). If you need registration assistance, please email adminmwwa@masswaterworks.org or call 978-263-1388.

ATTENDANCE & TCH POLICY: Participation of the attendees will be confirmed throughout the Zoom session. Participation and completion of an online evaluation form are necessary to be eligible for TCHs. TCHs will be issued only when full payment is received.
