

## **MWWA SUMMER EXPO (Aug. 22<sup>nd</sup>) – TECHNICAL SESSION**

### **Pipe Locating & Leak Detection**

MWWA Course: MWWA 24-009 MA Wastewater: BC-2024-3837

Understanding how to properly select and use pipe locating and leak detection equipment can save utilities time and money. Those well-versed in this skill agree that being good is as much of an art as it is a science. Understanding all of the various types of equipment and their limitations is an important first step in becoming proficient at this critical task that many water operators must perform. Attendees at this year's Expo Technical Session will leave with a better understanding of the wide range of equipment and techniques that are available in today's market and have the information needed to improve their pipe locating and leak detection skills.

#### Learning Objectives:

- Understand the different types of equipment used for pipe locating and leak detection
- Learn about the limitations of the various pieces of equipment.
- Discuss the tips and techniques necessary to become a better pipe and leak locator.

This course is approved for **2.0 TCHs** (Training Contact Hours) for Massachusetts Water and Wastewater operators as well as Rhode Island Water Operators.
