Maynard, MA 01754

Mechanic

Currently seeking a Mechanic in Maynard, MA. The Mechanic performs a variety of semi-skilled, skilled, technical, and administrative work in the planning, scheduling, maintenance of vehicles and equipment within Fleet Services.

- High school or GED with the ability communicate effectively in writing and orally (operational, process, safety and quality instructions) and be able to carry out verbal and written instructions. Ability to perform basic mathematical calculations.
- Specialized training in vehicle and equipment maintenance with knowledge and experience in the areas of automotive and truck mechanics, gas and diesel engines, transmissions, hydraulics, valves, generators and welding and body repair.
- Must demonstrate ability to accurately record data from meters, gauges, scales, panels, computer consoles and other equipment.
- Entry level but some experience preferred in vehicle and equipment maintenance, Fleet Management or related field. Experience in and exposure to repair and maintenance of the following: pickup trucks, one, two, five and ten-ton dump truck, snow plow, salt spreader and trailer equipped trucks preferred.
- Must have ability to safely operate motorized vehicles and construction-type equipment, drill press, bench press, grinder, band saw, electric charging systems testers, digital and computerized diagnostic instruments, hydraulic jacks and lifts, air tools, wrenches, drivers, wheel and tire replacement systems, air compressor, lubricants, greases, coolants and related fluid, cleaning equipment, portable radios, telephones, computers, copiers, printers and other equipment and devices related to Fleet Services activities.
- Good verbal and written communication skills are necessary.
- Must have ability to operate Computer Maintenance Management System (software).
- Must demonstrate ability to work in a team environment and willingness to assume additional or new responsibilities readily.
- Must demonstrate proficiency in the care and use of all site specific, facility required PPE (Personal Protection Equipment), including respirators, gas detectors, confined space equipment, etc.)
- Must provide own hand tools used in the normal performance of the job and includes, but not limited to; wrenches, socket sets, drivers, hammers, chisels, storage cabinets and tool boxes. Replacement of hand tools due to damage or breakage in the normal performance of the job will be reimbursed after approval by the Plant Manager.
- Must be able to participate in after-hours emergency call-outs.
- Must have and maintain a valid driver license and safe driving history
