

# Plant Manager - Wastewater

## Job Details

**Location: Plymouth, MA**

**Employment: Full-time, regular**

Woodard & Curran is an 800-person, integrated engineering, science, and operations company. Privately held and steadily growing, we serve public and private clients nationwide. We consistently rank among the top firms in the U.S., including Engineering News-Record's top 100 environmental firms and top 200 design firms. Woodard & Curran was founded with a simple business concept: if we provide an enjoyable place to work with opportunity, integrity, and commitment, we will attract talented people who thrive and excel at their work.

## Responsibilities:

Woodard & Curran is seeking a full-time Plant Manager for The Pinehills wastewater treatment facility and collection system located in Plymouth, MA. The Pinehills PSTF is an SBR treatment facility and collection system includes 22 pump stations, with a full time staff of three. The Plant Manager is responsible for the day to day hands on operation, maintenance, management and supervision of the wastewater treatment system. This includes scheduling, coordinating, and directing plant staff in the overall operation of the various treatment processes and maintenance activities throughout the facility. The Plant Manager is responsible for fostering a safe work environment for all plant personnel and visitors. The Plant Manager will regularly prepare reports for regulators, the client, and the firm. Additionally, the Plant Manager will manage the budget of the facility and manage the scope and schedule of contractual obligations and serve as the main point of contact between the client and the firm. Supervision will be provided from the Project Manager and the Area Manager; however the Plant Manager must be able to work comfortably in a self-directed environment with minimal daily supervision.

## Qualifications:

- 3 to 8 years' experience in operation and maintenance of complex wastewater facilities that demonstrate an ability to assume increasing responsibility.
- Must possess Mass. Grade VI wastewater license– or ability to obtain via reciprocity.
- High School graduate or equivalent, with technical/vocational school background; college degree preferred.
- Excellent verbal and written communication skills.
- Proficiency with computers and electronic devices and possess the ability to effectively use various software to manage data including maintenance and compliance management programs.
- Must possess a valid Driver's License and a good driving record and must be able to lift or move up to 50 pounds on a regular basis.
