DESCRIPTION/RESPONSIBILITIES:

At Woodard & Curran, there's nothing we love more than a tough engineering challenge. We handle a wide range of water and environmental issues—solving complex problems with creativity and tenacity. That's how we make a difference to our clients, people, and planet. Our company was founded on a simple concept: provide a safe and enjoyable place to work with opportunity, integrity, and commitment, and we will attract talented people. Those people are at the heart of our firm, solving some of the most pressing water and environmental challenges for our clients.

Woodard & Curran draws on the experience of hundreds of certified operators across the country, backed by the knowledge and skills of hundreds more engineers, scientists, and regulatory experts, to quickly

tackle the most challenging operational issues and keep treatment plants running efficiently and in full compliance. Woodard & Curran also aids employees in earning, upgrading, and keeping their certifications within the industry.

What will you be doing at Woodard & Curran?

Be part of a team that runs the first CoMag system in the entire world! The Concord, MA Wastewater Treatment Facility is the first wastewater plant on the planet to utilize CoMag treatment technology, which uses magnets to help treat the wastewater resulting in a highly polished final effluent. Each day presents different challenges and learning opportunities as we work towards 100% compliance which is achieved by daily process monitoring and a comprehensive maintenance system. If you enjoy working outdoors protecting nature's precious resource, water, then this position is for you. Woodard & Curran is dedicated to our employee's growth and development and wants to help you on your career path.
