

City of Haverhill

Water Maintenance Supervisor

The City of Haverhill is seeking to hire a Water Maintenance Supervisor. This position is responsible for the overall management of the City's water distribution and meter division including 276 miles of water main, 17,000 customer services, and 18 employees. The Water Maintenance Supervisor works under the direct supervision of the Deputy DPW Director.

This position requires a Massachusetts D4 Full Operator Certificate and a minimum of three (3) years' experience managing a water distribution system or related utility. A Bachelor of Science degree in civil engineering or related field is desirable.

Candidates must have a thorough knowledge of all aspects of operating a water distribution system, the ability to establish and maintain effective working relationships with others, written and oral communication skills, computer skills and knowledge of applicable state and federal regulations. Candidate must also have experience with preparing and administering budgets and overseeing capital projects.

The complete job description and application is available on the City's website at:
