30

CLASSIFICATION TYPE: Permanent

CLASSIFICATION TIME: Full-time

COUNTRY: United States

STATE/PROVINCE: Maine

CITY: Portland

ZIP CODE: 04102

JOB TITLE:

Civil Engineer 3 / Project Engineer

Application number:

R01449

At Woodard & Curran, there's nothing we love more than a tough environmental or engineering challenge. We handle a wide range of site-civil, water, and environmental engineering issues—solving complex problems with creativity and tenacity. That's how we make a difference to our clients, people, and planet. Our company was founded on a simple concept: provide a safe and enjoyable place to work with opportunity, integrity, and commitment, and we will attract talented people. Those people are at the heart of our firm. Here, you will be engaged in some of the most interesting civil engineering & infrastructure projects and will be solving important environmental challenges for our clients.

#### Overview

Woodard & Curran is offering a unique opportunity to join our Portland, ME team providing high quality civil and environmental services to the municipal, institutional and industrial clients throughout the region. We are looking for a motivated, growth oriented professional with an entrepreneurial spirit and willingness to serve in a key role on a respected team of experienced professionals.

#### Responsibilities:

The successful candidate will have technical expertise in the field of civil and environmental engineering and have in-depth understanding of the engineering concepts associated with storm water management, site design, flood mitigation, urban revitalization, utility infrastructure, solid waste, solar, municipal engineering consulting, and other exciting civil engineering projects. The candidate will have

experience preparing permit applications, engineering reports, contract documents for construction, and overseeing construction of work design. Familiarity with local, state and federal permitting is a plus.

Qualifications:

In addition, this position will require experience in the following supervisory and project engineering duties:

- Making decisions independently on engineering problems and methods.
- Mentoring and directing staff on technical assignments, and reviewing technical work completed by engineers under supervision.
- Interacting with clients and regulatory agencies, representing the firm in a professional manner.
- BS in Civil Engineering or equivalent.
- A minimum of 3 years of professional experience with an engineering firm.
- Experience with consulting engineering and demonstrated leadership skills a plus.
- Proficient with stormwater management design and computer software. Hydraulics and hydrology engineering experience is a plus.
- Hands on experience with municipal and private-sector projects and clients.
- Exposure to geotechnical and transportation components of project is considered a plus

Woodard & Curran is an Affirmative Action/Equal Opportunity Employer.

Woodard & Curran is a Drug Free Work Place.

Individuals with Disabilities and Protected Veterans are encouraged to apply.
