Industrial Wastewater Senior Project Manager
Portland, ME

Posting Days:

30

CLASSIFICATION TYPE: Permanent

CLASSIFICATION TIME: Full-time

COUNTRY: United States

STATE/PROVINCE: Maine

CITY: Portland

ZIP CODE: 04102

JOB TITLE:

Industrial Wastewater Senior Project Manager

Application number:

R01632

At Woodard & Curran, there's nothing we love more than a tough engineering challenge. We handle a wide range of water and environmental issues—solving complex problems with creativity and tenacity. That's how we make a difference to our clients, people, and planet. Our company was founded on a simple concept: create a safe and enjoyable place that provides opportunity, challenge, and recognition, and we will attract talented people. Those people are at the heart of our firm, solving some of the most pressing water and environmental challenges for our clients.

Who We Are Looking For:

Woodard & Curran is seeking an experienced Project Manager to join our Industrial Wastewater team and deliver water and wastewater projects to Industrial clients in the Food & Beverage, Pharmaceutical, and Consumer Goods markets. The successful candidate will be capable of leading multidiscipline teams and viewed as a valued problem solver, contributing to the technical delivery of the projects, while keeping abreast of industry trends and client priorities.

Woodard & Curran delivers projects ranging from engineering studies to complete designs culminating in the construction of wastewater treatment systems, executed through a variety of contracting mechanisms including Design/Build. The successful candidate will be comfortable navigating a variety of project types and approaches, while becoming a trusted partner to our clients, and playing a key role in expanding our growing business.

The position requires a strong communicator with the demonstrated ability to develop, lead, and mentor project teams.

What's in it for You:

- Woodard & Curran is a privately held firm whose values begin with putting Employees first
- Flexible work environment and competitive benefits.
- Strong bonus potential.
- Relocation Assistance.
- Work with internationally recognized clients.
- External Association and Committee involvement is encouraged and supported.

What You Will Be Doing at Woodard & Curran:

- Use Woodard & Curran processes and tools to effectively manage project scope, schedule, and budget related to a variety of projects, including multi-disciplinary engineering projects and design build efforts.
- Work directly with clients and diverse teams to lead the delivery of projects related to providing technical advice, planning, design, permitting, and construction phase services for the industrial clients, with a focus on water, wastewater, and water reuse.
- Communicate frequently and effectively with clients, potential clients, owners and regulators.
- Support Business Development efforts through the preparation of proposals, participation in project interviews, and support of marketing activities and initiatives.
- Execute projects utilizing in-house Woodard & Curran engineering, drafting, and administration staff and solicit and secure subcontracts where required to deliver the work.
- Negotiate agreements with clients, vendors, and subcontractors as required to manage risk and achieve project goals.
- Mentor staff and provide technical direction, including senior technical review, as required to support the project.

What You Will Need to Succeed:

- Bachelor of Science in Civil, Environmental, or Chemical Engineering, Masters preferred
- Minimum of 15 years of professional experience with an engineering consulting or design firm.
- 5+ years as a Project Manager with proven track record of successful project management.
- Professional Registration preferred.

Woodard & Curran is an equal opportunity employer.

Woodard & Curran is a Drug Free Work Place.

Individuals with Disabilities and Protected Veterans are encouraged to apply.
