

Town of Andover

Water Treatment Plant Operator

The Town of Andover Water Division ensures the integrity of the water supplies and surrounding water shed areas. It is also responsible for the treatment, quality control and distribution of the water in accordance with all federal and state regulations for delivery of the drinking water to the consumers. In 2018, Andover's Water Division treated and delivered over 2 billion gallons of water to the Towns of Andover and neighboring North Reading.

Under the direction of the Water Treatment Plant Superintendent, the Water Treatment Plant Operator is responsible for the efficient and sanitary operations, maintenance and repair of the Town's water treatment facility, pumping and ejector stations, storage tanks and telemetry systems. The Operator also oversees the testing and analysis of water samples and makes required adjustments to maintain water quality within EPA, Board of Health and other governmental guidelines and criteria.

Successful candidates will have at least a high school diploma and 2 years of related experience, as well as mechanical ability to perform and oversee technicians' level treatment facility maintenance and repair. Position requires a Full 3T drinking water license, as well as a valid driver's license.

Salary range \$29.53/hr - \$33.86/hr, commensurate with certification, with excellent benefits package.
