**Technology Implementation Specialist - Data Management**  
*Portland, ME*

Posting Days:  
30

CLASSIFICATION TYPE: Permanent  
CLASSIFICATION TIME: Full-time

COUNTRY: United States  
STATE/PROVINCE: Maine  
CITY: Portland  
ZIP CODE: 04102

JOB TITLE:  
Technology Implementation Specialist - Data Management

Application number:  
R01679

**DESCRIPTION/RESPONSIBILITIES:**

At Woodard & Curran, there's nothing we love more than a tough engineering challenge. We handle a wide range of water and environmental issues—solving complex problems with creativity and tenacity. That's how we make a difference to our clients, people, and planet. Our company was founded on a simple concept: provide a safe and enjoyable place to work with opportunity, integrity, and commitment, and we will attract talented people. Those people are at the heart of our firm, solving some of the most pressing water and environmental challenges for our clients.

**Who are we looking for?**

We are looking for a highly analytical, technically proficient self-starter with advanced logical problem-solving skills. You will provide utility technology implementation, training & support for end users at our projects nationwide. This will be a true partnership with you and our business. You will be tasked with understanding project needs, using our current tools to recommend a solution, and integrating technology into the core of the projects' business processes. You will ensure day to day technology operations run smoothly and assist with pushing current and future initiatives forward. You will work closely with a small, but growing team of professionals to achieve business goals of enhancing our asset management, data collection and reporting systems across the organization.

This position is heavily focused on data management and manipulation. You will need a strong background in these areas to be able to hit the ground running in this exciting and challenging role!

Open to virtual employment.

We are interested in every qualified candidate who is eligible to work in the United States. However, we are not able to sponsor visas for this job opening.

What will you be doing at Woodard & Curran?

This is a dynamic position that will require you to learn, maintain and enhance currently in-place technology solutions. You will develop trust and relationships with end users and work to implement new software solutions and workflow improvements to aid us in automating manual and antiquated processes across our business. You will also aid our support staff in troubleshooting and resolving issues related to end user data collection and reporting systems and be able to offer solutions to those problems as promptly as possible. You will dive into the data behind the software and assist with creative problem solving, advanced reporting and data integration assignments. Most of your work will be working one-on-one or in small groups either virtually, or on-site at our facilities across the country if necessary. This will require travel of varying distances, based on location. We have projects nationwide with a majority being in New England and the Mid-West.

What will you need to succeed?

- Outstanding verbal and written communication skills a must with ability to deliver effective information and training to audiences of all technical levels.
- Equipment maintenance or operations experience, preferably in the Water, Wastewater, Energy, or Facility management industries.
- Leadership skills to effectively help a project team through digital culture change.
- Personal organization and time management skills to work independently on equipment and facility data collection and data structuring.
- High level of proficient with MS Office, expert level with Excel, preferred.
- Experience with Computerized Maintenance Management Systems (CMMS), Geographic Information Systems (GIS), mobile data collections systems or other reporting software including Crystal Reports & PowerBI is highly desired.
- Experience with SQL, JavaScript, Python and other common programming languages preferred.
- Willing to travel to client locations.
- Military experience in related field or discipline may be a good fit in this role.

Woodard & Curran offers a generous compensation and benefits package to include retirement, generous paid time off, holidays, medical & dental insurance, flexible spending account, career growth, and more!

Woodard & Curran is an Affirmative Action/Equal Opportunity Employer.

Woodard & Curran is a Drug Free Work Place.

Individuals with Disabilities and Protected Veterans are encouraged to apply.
