Apply by May 31, 2021

Duties:

Operates and maintains newly constructed MBR facility including control of flow, valving and pumps in order to achieve compliance with all EPA and DEP permits. Operates a SCADA system, including remote access functions. Monitors the system on a continual basis to ensure that the system is functioning normally. Collects samples and performs sophisticated laboratory analysis to determine the efficiency of the process, and makes adjustments based on the results of said analysis. Maintains accurate records regarding process control, maintenance activities and laboratory analysis to facilitate reporting to state and federal agencies. Performs housekeeping duties as needed, including but not limited to mowing, raking, snow shoveling, painting and cleaning. Performs other duties as assigned.

Special Requirements:

Minimum Grade 3M Full License issued by the Mass Board of Certification of Wastewater Treatment Plant Operators. Based on assignment, applicants may be required to possess a current and valid certificate or an appropriate grade issued by the Massachusetts Board of Certification of Operators of Wastewater Treatment Facilities.
