JOB TITLE:  
Project Manager

Requisition Number:  
R01909

**DESCRIPTION/RESPONSIBILITIES:**

Woodard & Curran is a national engineering, science, and operations firm with a simple vision for clean water, a safe environment, healthy communities, and happy people. As an employee-owned company, we strive to cultivate diverse teams and encourage collaboration in an equitable and inclusive culture. We seek talented individuals from all backgrounds to help us address a broad range of water and environmental issues. We prioritize our people, offering opportunities for professional growth, ownership, and flexibility. That's how we make a difference to our clients, people, and planet.

Woodard & Curran draws on the experience of hundreds of certified operators across the country, backed by the knowledge and skills of hundreds more engineers, scientists, and regulatory experts, to quickly tackle the most challenging operational issues and keep treatment plants running efficiently and in full compliance. Woodard & Curran also aids employees in earning, upgrading, and keeping their certifications within the industry.

What will you be doing at Woodard & Curran?

Woodard & Curran is seeking a full-time Project Manager with a Massachusetts Grade 6 wastewater certification to be responsible for the day to day operations, maintenance and management, administrative duties, and maintaining close client communications for a project located in in Plymouth, Massachusetts.

Woodard & Curran provides operations and maintenance services related to the management, operation and maintenance of the 3.0 MGD design flow SBR treatment facility, sludge & septage receiving facility, Water Street Pump Station (i.e. headworks) for raw sewerage influent screening and grit removal, Plymouth South HS MBR package treatment plant and eight (8) remote pump stations, air relief valves, force mains located throughout the 65 miles of collection system.

Typical responsibilities include:

- Day-to-day operations and management of the facilities, including provision of trained staff 24/7,
- Day-to-day operations and management of the remote communications network and assigned SCADA network.
- Implementation and management of an innovative predictive maintenance management program,

- Administration and implementation of all routine and capital repair and replacement projects, and
- Emergency response for process upsets, equipment failures, force majeure events, all alarm events, etc.
- Provision of requested / required operations and compliance reporting to regulatory agencies and Town of Plymouth.

The Project Manager will play an active role in the coordination and communication with assigned staff, Plymouth collection system staff, client representatives, contractors, and any assigned engineering firms. He or she will also work closely with all parties to ensure effective system operation and optimization. The successful candidate will be responsible for performing hands-on work and producing all required reports. He or she will coordinate the on-going daily operation of the utility system.

This position starts at \$105,000 - \$115,000/year depending on qualifications.

Sign-on Bonuses Offered!

Relocation will be considered for those who have or had a Massachusetts Wastewater License – Grade 6. We will support relocation expenses!

What will you need to succeed?

- 10 to 15 years' experience in managing complex water wastewater treatment facilities including laboratory, and collection systems.
- Massachusetts Wastewater Operators License - Grade 6 or (ability to obtain through reciprocity).
- High school or equivalent, with technical/vocational school background; College degree preferred with focus in Environmental Areas.
- Experience overseeing operating and capital budgets.
- Participation directly and to a significant extent in the operation, maintenance, and repair of water/wastewater facilities throughout the last ten years,
- Experience managing a minimum of 5 staff.
- Excellent verbal and written communication skills and interpersonal skills.
- Proven track record with regulators and solid understanding of regulations and reporting requirements.
- Applicant must possess a valid Driver's License and a good driving record

Woodard & Curran offers a generous compensation and benefits package to include retirement, generous paid time off, holidays, medical & dental insurance, flexible spending account, career growth, and more!

Equal Employment Opportunity and Affirmative Action Statement

Woodard & Curran is an equal opportunity employer. Individuals with Disabilities and Protected Veterans are encouraged to apply.

Diversity, Equity, and Inclusion

We value diversity, equity and inclusion and encourage individuals from all backgrounds to apply. Woodard & Curran believes that diverse teams working together in an equitable, inclusive culture

provides the right environment for employees to thrive, our clients to benefit, and our business to prosper over the long run. Our success is tied to a culture that embraces our differences and creates an environment where everyone can bring their whole, authentic selves to work. When employees are supported to reach their full potential, we can provide our clients with the most innovative, sound, and cost-effective solutions.
