Project Engineer

The Acton Water District is seeking an individual to join our team as a Project Engineer. You must be an organized, energetic, and self-motivated individual with strong customer service and communication skills to be part of our team. Under the general supervision of the District Manager, this position will provide engineering support for all District activities, including implementing operational changes that have service impact, supporting emergency response, supporting maintenance planning, acting as liaison to design and construction projects, and supporting start-up of new/rehabilitated facilities. This is a full-time position with some night and weekend work required. Excellent benefits, supportive work environment, and salary dependent on qualifications (to be negotiated).

Applications received by July 26, 2024 will be given priority consideration, however the position will remain open until a suitable candidate is hired to round out our team. To learn more about our organization, please visit www.actonwater.com. The job description and the anticipated minimum starting salary are available at www.actonwater.com/about-us/job-opportunities.

A cover letter and resume should be emailed to matt@actonwater.com.
