

SUPERINTENDENT

TOWN OF WELLESLEY

The Town of Wellesley Department of Public Works is seeking a Superintendent for the Water and Sewer Division with the skills to lead a team to manage a modern water supply/treatment and sewerage collection/distribution system. The Department has just implemented a Town-wide advanced metering infrastructure system and an interim PFAS treatment system. Over the next few years we anticipate the continued evaluation of PFAS treatment options, investments in local water sources, and as a partially-supplied MWRA community, we are considering a secondary connection to the MWRA water supply. Goals include decreasing unaccounted for water, increasing conservation efforts, and proactively maintaining our water and sewer infrastructure. The successful candidate will provide outstanding customer service; lead, manage, and develop a high-performing team; oversee daily operations including emergency responses; ensure regulatory compliance; and develop, prepare, and administer operating and capital budgets.

Requirements: Bachelor's degree in Civil Engineering or a related field; five (5) years' experience in water and/or sewer utility management, certification at the Distribution Class 3 and Treatment Class 2 levels, as defined by the Massachusetts Board of Certification of Operators of Drinking Water Supply Facilities; knowledge of hydraulics, water treatment processes, and conveyance operations and familiarity with the use of Supervisory Controls and Data Acquisition (SCADA) and Programmable Logic Controller (PLC) systems; knowledge of construction operations; or equivalent combination of education and experience; a valid Massachusetts Class D driver's license and excellent written and oral communication skills.

Salary range is \$83,400 to \$128,400 with numerous municipal benefits. Please submit a cover letter and resume to the Human Resources Department, 525 Washington Street, Wellesley, MA 02482 or e-mail as a PDF document to jobs@wellesleyma.gov by October 12, 2022. AA/EOE
