

**Massachusetts Water Works Association, Inc.  
Policy for Offering the Asbestos Cement Worker Safety Course to Utility  
Advantage Members  
(Adopted by the Board of Directors, September 18, 2012)**

Massachusetts Water Works Association will allow Utility Advantage members the opportunity to host the 8-Hour OSHA Asbestos Cement Worker Safety course at their utility for a cost of \$3,500. MWWA will contract with a certified Asbestos Training Provider for the instruction. The utility must provide the facility and must send the names of the participants to MWWA. MWWA will coordinate the saw demonstration and would request that the utility coordinate the snap cutting demonstration. The utility may send a maximum of 25 of their employees to this course, and the attendees must be from the utility member. Lunch will be the responsibility of the host utility or their employees. MWWA will not provide TCHs for this class.
